In the petition it is alleged that three firms named above control 90 per cent of the business here and have combined, in violation of an act of Congress to prevent the unlawful restraint of trade.

It is further alleged that the price of lumber here, as a result of the combina-tion, is 175 per cent in advance of that on the mainland. Practically all the lumber used here is imported. United States Dist, Judge Dole signed an order

to show cause why the injunction should not be issued. The hearing was It is reported that Dist. Atty. Breckens is about to file a similar suit against the cattle and meat dealers, of whom there are about 75, including many very prominent ones. It is claimed that practically all of the cattle ranchers of the island have combined to control retail prices, agreeing not to com-plete and to sell only in a single mar-

ket in Honolulu. It is further stated that several other alleged combinations in other lines of business will be proceeded against in a similar manner. It is claimed that a large proportion of the various kinds of business here is transacted under trust agreements.
